Cloud Platforms: AWS (Cloud Practitioner knowledge), Microsoft Azure

Networking: TCP/IP, DNS, DHCP, VPN, Active Directory (basic), Wi-Fi troubleshooting

Security: Risk Assessment, Vulnerability Assessment, Incident Response, Security Awareness

Hardware: PC setup, printer configuration, hardware troubleshooting

Software: Microsoft 365, Outlook, Teams, Word, Excel, PowerPoint, CRM

Programming/Scripting: Python (basic), C++, C

Ticketing & Documentation: IT documentation, issue tracking, user support

EXPERIENCE

Customer Service Representative

June 2026 – Present

Two Men and a Truck | Winnipeg Manitoba

- Scheduled and managed delivery logistics for large home appliances (refrigerators, washers, dishwashers), coordinating optimized time windows with dispatch and customers.
- Conducted pre-delivery consultations to verify order specs, confirm site readiness (doorway measurements, utility hookups), and set clear expectations for installation services.
- Resolved delivery escalations in real-time, including handling damaged goods claims, property damage reports, missing accessories, and unexpected access barriers.
- Served as primary dispatcher liaison, tracking active delivery routes and providing real-time ETA updates to customers to minimize missed appointments.
- Educated customers on service levels, clearly explaining key differences between curbside drop-off, room-of-choice, and white-glove installation with haul-away service.
- Processed returns and exchanges for wrong or ill-fitting items, coordinating smooth reverse-logistics for damaged units and old appliance recycling.

- Maintained detailed CRM records, logging customer communications, driver notes, claims documentation, and payment adjustments with high accuracy.

Cloud Support Officer

December 2024 – May 2026

TOSLAD Group | FCT, Nigeria

Tools: AWS (EC2, S3, IAM, VPC), Microsoft Azure (VMs, Storage Accounts, Virtual Network), Microsoft Entra ID, Windows Server, Linux (Ubuntu), PowerShell, Azure Portal, AWS Management Console, Git (Basic)

- Assisted with deployment and administration of cloud resources in AWS and Microsoft Azure.
- Supported user identity and access management using AWS IAM and Microsoft Entra ID.
- Monitored cloud resources and participated in troubleshooting cloud-based services.
- Assisted with provisioning virtual machines, storage, and networking resources.
- Supported backup, recovery, and system availability activities.
- Worked with Windows and Linux virtual machines to maintain secure and reliable operations.
- Applied cloud security best practices, including least-privilege access and resource monitoring.
- Assisted with documenting cloud configurations and operational procedures.
- Collaborated with infrastructure teams to improve system performance and reliability.

Information Security Officer

May 2022 – November 2024

Haskab Med | Oyo State, Nigeria

Tools: Microsoft Defender, Windows Security, Nessus, OpenVAS, Nmap, Wireshark, BitLocker, PowerShell, AWS IAM (Basic), Azure Security Center (Basic), Microsoft 365 Security

- Conducted basic vulnerability assessments and documented remediation recommendations.
- Assisted in monitoring endpoint security and investigating security alerts.
- Supported implementation of security policies, password standards, and access controls.
- Performed user access reviews and account management following the principle of least privilege.
- Assisted in identifying and responding to security incidents.
- Participated in risk assessments and security awareness initiatives.
- Helped maintain compliance documentation and security reports.
- Worked with IT teams to strengthen endpoint and network security.
- Supported basic log reviews and security monitoring activities.

Service Desk Analyst

Apr 2020 – Apr 2022

Rite Foods Limited | Lagos State, Nigeria

Tools: Windows 10, Windows Server, Microsoft 365, Active Directory, Azure AD (Entra ID), RDP, AnyDesk, TeamViewer, Microsoft Teams, Outlook, PowerShell (Basic), Jira/ServiceNow, BitLocker

- Provided Level 1 and Level 2 technical support for Windows desktops, laptops, printers, and business applications.
- Diagnosed and resolved hardware, software, email, VPN, and network connectivity issues.
- Managed user accounts, password resets, and permissions using Active Directory and Microsoft 365.
- Installed, configured, and upgraded operating systems and business software.
- Supported Microsoft Outlook, Teams, OneDrive, and other Microsoft 365 services.
- Logged, tracked, and resolved incidents using an IT ticketing system while meeting service-level targets.
- Assisted with workstation setup, imaging, and onboarding of new employees.
- Created technical documentation and user guides to improve service delivery.
- Escalated complex technical issues to senior infrastructure and cloud teams when required.

PROJECTS

Home IT & Cloud Lab

- Built virtual Windows and Linux environments for hands-on learning.
- Practiced user administration, networking, and system troubleshooting.
- Explored AWS services including EC2, S3, IAM, and VPC.
- Configured Azure virtual machines and basic cloud networking.
- Performed basic security hardening and vulnerability testing.

EDUCATION

B.Eng. in Electrical & Electronics Engineering (Second Class – Upper Division)

Federal University of Technology, Akure, Nigeria — Nov 2018

Credential Evaluation: *Bachelor's degree (four years)*

- Best engineering undergraduate final year project design in South-West Nigeria — CODET (2018) inter-university competition
- Third runner-up, national CODET (2018) engineering inter-university competition

CERTIFICATIONS

- BCS Level 4 Certificate in IT — The Chartered Institute for IT, Oct 2023 (Membership No. 995133861)
- AWS Certified Cloud Practitioner — In Progress
- Microsoft Azure Fundamentals (AZ-900) — Planned

PROFESSIONAL DEVELOPMENT

- Complete VMware vSphere ESXi and vCenter Administration — Udemy, Sep 2026 (Credential ID: UC-c8c1aaee-f077-4635-a167-155dc527046f)
